

Buyer's Guide to Products for Noise and Vibration Control

This Buyer's Guide lists manufacturers and suppliers of products for the control of noise, vibration and mechanical shock grouped into the following nine categories:

- Sound Absorptive Materials
- Sound Absorptive Systems
- Sound Barrier Materials
- Sound Barrier Systems
- Composite Materials
- Composite Systems
- Vibration Damping Materials
- Vibration Isolation Systems
- Silencers

Each category contains a series of numbered classifications for specific product identification. Company identifications are listed by: name, address, telephone, FAX, e-mail address and web site address. The information is updated on an annual basis from questionnaires which are sent to known manufacturers.

To locate the noise and vibration control product of interest, first refer to the main categories listed above then go to the detailed listings to locate manufacturers that offer that particular product. The numbers after each company listing indicate the products that they offer. Boldface company listings are advertisers in this issue.
