

Dynamic Measurements Buyer's Guide

This Buyer's Guide lists manufacturers and suppliers of instrumentation for dynamic measurements grouped into the following eight categories:

- Calibrators
- Data Acquisition
- Electroacoustics
- Environment, Acoustics
- Environment, Vibration
- Machinery Diagnostics
- Structural Dynamics
- Transducers

Each category contains a series of numbered classifications for specific product identification. Company identifications are listed in order of: name, mailing address, telephone, FAX, e-mail address and website URL. These listings are updated on an annual basis from questionnaires sent to known companies.

To locate the product or application of interest, refer to the main categories listed above then go to the detailed listings to locate the companies who offer that particular product or provide solutions for a particular application.
